1. Definitions

- **Supplier/Source of Supply** – A person who forms plans and leads the development, troubleshooting, and design changes of a random map script, in order for it to comply with all applicable requirements. The Supplier is the owner and point of contact for a map, but need not be the sole originator of all containing script or script-compiling materials. In the event of collaboration, it is presumed that the Supplier properly credited all co-creators and achieved consensus to apply the team's work in support of this Alchemy AOE Competition.
- **CSRM** – (C)omponent (S)pecification for (R)andom (M)ap: A technical document defining the needs for each map sourced specifically for the competition. Supersedes any general specifications, in the case of conflicting requirements.
- **GSRM** – (G)eneral (S)pecification for (R)andom (M)ap: A technical document defining the common needs of most or all random maps used in competitions, mitigating repetitive text across component specifications that would otherwise share common features. In the case of a conflict, specific requirements take priority over general.

2. Overview

This document provides definition for custom random maps intended for use in an “Alaska-themed” (AK) Alchemy League Season 4.

3. Procurement Focal

Direct all questions to CookiePirate on discord. The Map Procurement Focal consults as needed with the Competition host to disposition any maps that do not conform to established requirements and determines, in his/her discretion –with input from subject-matter experts— the state of readiness for any map listed herein.

4. Procurement Process

Where applicable, maps shall be sourced according to the procedure defined by [STND-001](#).

Table 5: Listing of Alaska Maps

Final selection from Table 5 depends on completion status, inspection standing, and discretion of the Map Procurement Focal.

For all eight maps, there is no contest to determine which will appear in ALS4. Instead, those random maps are assured use if they are dispositioned as *ready* by the Map Procurement Focal.
