1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
GSRM-PL-1	General Requirements, Polish Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

This section is intentionally left blank.

3 - Background

This Age of Empires II random map exhibits a famous glacial lake in the Tatra Mountains called Morskie Oko. While Poland is noteworthy in medieval history for its highly coveted Central European plains, this map balances those themes through natural beauty and diverse geography.

4 - Overview

This component specification defines requirements of an Oasis style map, for use in a Polish Map Collection.

5 - General Requirements

The requirements of GSRM-PL-1 apply unless superseded by this specification.

6 - Rule Changes

6.A - Resize Domain

Morskie Oko shall be randomly resized to a total area that is between 10% and 30% larger than the unmodified area of its selected vanilla size. For example, a “TINY” map, which is normally 120 tiles along its edge becomes 131 +/- 5 tiles, a “SMALL” map, which is normally 144 tiles along its edge becomes 158 +/- 6 tiles, and so on. All integer choices shall be possible, within required windows.

7 - Land Configuration

Morskie Oko shall be arranged per Figure 7 below:

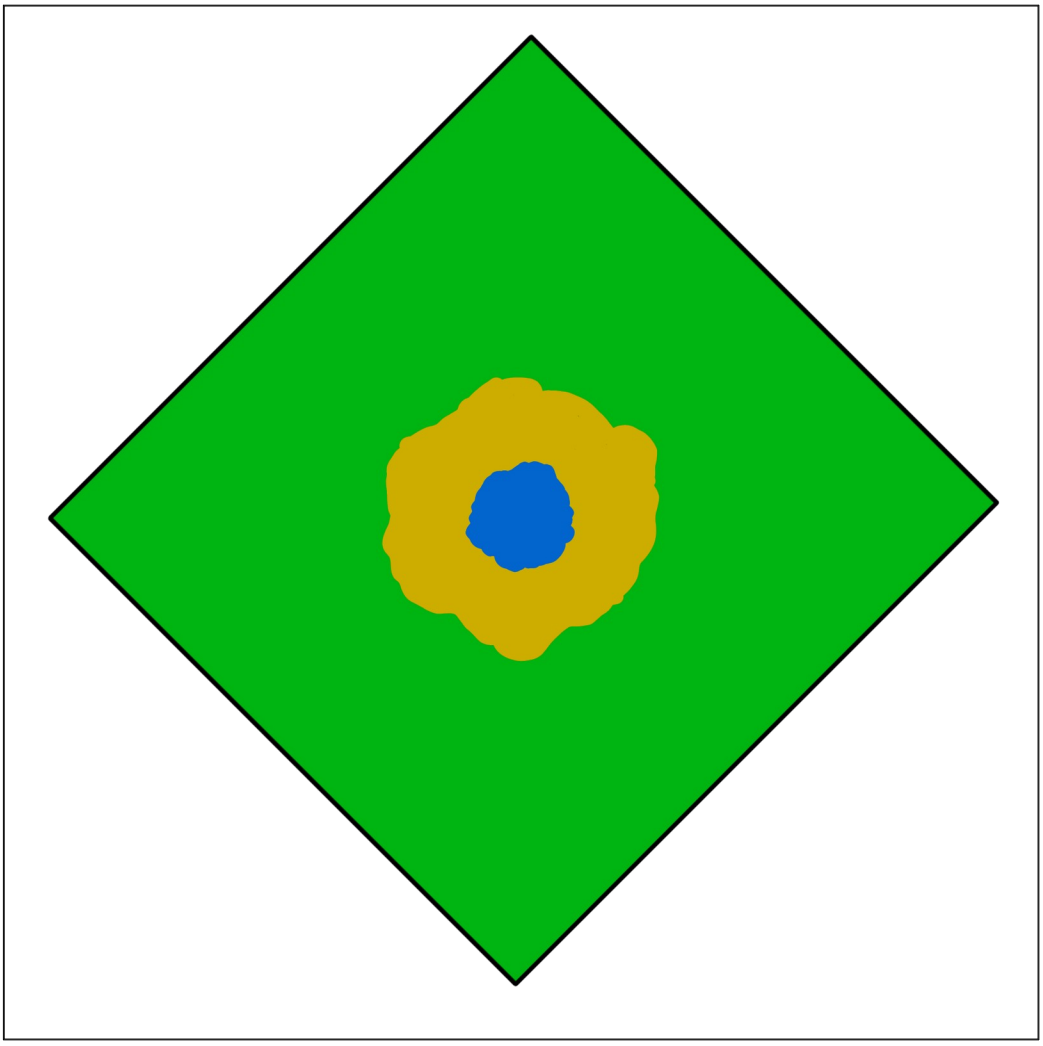

Figure 7: Morskie Oko Configuration

7.A - Zoning

In this way, three zones are established, described as follows:

7.A.1 - Lake

The blue area.

7.A.2 - Ring

The tan area. Constant thickness regardless of map or Lake area.

7.A.3 - Canvas

The green area.

7.B - Origin of Player Lands

The *Origin of Player Lands* shall be located in the Ring (§7.A.2).

7.C - Randomizations

7.C.1 - Lake

The Lake shall be sized such that total area belonging to all other zones remains constant at the vanilla benchmark for selected map size; E. G. a “TINY” map non-Lake area is 14400 tiles regardless of randomly selected dimensions from §6.A.

8 - Elevation

8.A - Lake

The Lake shall be Elevation 1.

8.B - Ring

The Ring shall be Elevation 0, with dramatic peaks up to Elevation 7.

8.C - Canvas

The Canvas shall be Elevation 0, with scattered dramatic peaks up to Elevation 7, whose number of groups scale with map size.

9 - Terrain

9.A - Lake

Lake terrains shall adapt to season per GSRM-PL-1, with the following exception: the Lake shall be walkable only within 3 - 4 tiles of its boundary with another zone and undockable.

9.B - Ring

The Ring shall consist of open land terrain, with forests at and above Elevation 4.

9.C - Canvas

The Canvas shall consist of open land terrain, with forests at and above Elevation 5.

10 - Objects

10.A - Starting Units

Each player shall start the game controlling objects defined by Table 10.A:

Object	**Per Applicable Specification**	**Distance from *Origin of Player Lands* [tiles]**	**Quantity**
Town Center	~	0	1
Herdable	GSRM-PL-1	2 to 3	4
Villager	~	6	3
Harmful Scout	GSRM-PL-1	4 to 9	1

Table 10.A: Starting Player-Controlled Objects

10.B - Resources

10.B.1 - Lureable

Wild Boar (48) is forbidden but Food Bears per GSRM-PL-1 shall be plentiful.

10.B.2 - Glacial Pass

For 1v1 configuration only, bonus resources provided in two Glacial Passes of approximate equidistance from each player's starting location. Resources for each pass depend on season:

- For Winter/Spring: Two bonus Food Bears per GSRM-PL-1.
- For Summer/Fall: Two reversibly-capturable gaia Fortified Outposts (2417) surrounded by hares.

10.B.3 - Relics

Relics on Morskie Oko shall be plentiful, with additional holy decoration.

10.C - Prominences

A few locations where the map that reaches Elevation 7 shall have a unique feature, representative of landmarks such as the "Cross of Giewont":

- Showcases holy sites using shrines, fortified churches, crosses, etc.
- Architecture and decorations the style of south-central Europe.
- Buildings introduced through this option shall be gaia unconvertible and indestructible.

The remaining summits shall feature a single mountain object, clustered with rocks and/or scrub. Regardless of holy or natural theming, summits shall be too cluttered for building or walking.

10.D - Eye of the Sea

The banks of the Lake shall contain sparse antiquity shipwrecks (2353), (2354), (2355), representing the legend of a mysterious underwater tunnel, linking the Adriatic Sea to Morskie Oko.

10.E - Lake Monster

Morskie Oko shall possess contain a single “Nessie” (1973), in accordance with medieval folklore.
