1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
GSRM-PL-1	General Requirements, Polish Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

This section is intentionally left blank.

3 - Background

This Age of Empires II random map exhibits Helski Polwysep, a long, narrow sandbar that shields the Bay of Puck from the tempests of the Baltic Sea. This location was selected because its lee and lucrative amber deposits accelerated the growth of Gdansk – a historic Polish seaport.

4 - Overview

This component specification defines requirements of a Scandinavia style map, for use in a Polish Map Collection.

5 - General Requirements

The requirements of GSRM-PL-1 apply unless superseded by this specification.

6 - Rule Changes

6.A - Resize Domain

Helski Polwysep shall be resized to twice the ordinary dimensions (e. g. a “TINY” map, which is normally 120x120 tiles becomes 240x240 tiles, and so on).

7 - Land Configuration

Helski Polwysep shall be arranged per Figure 7 below:

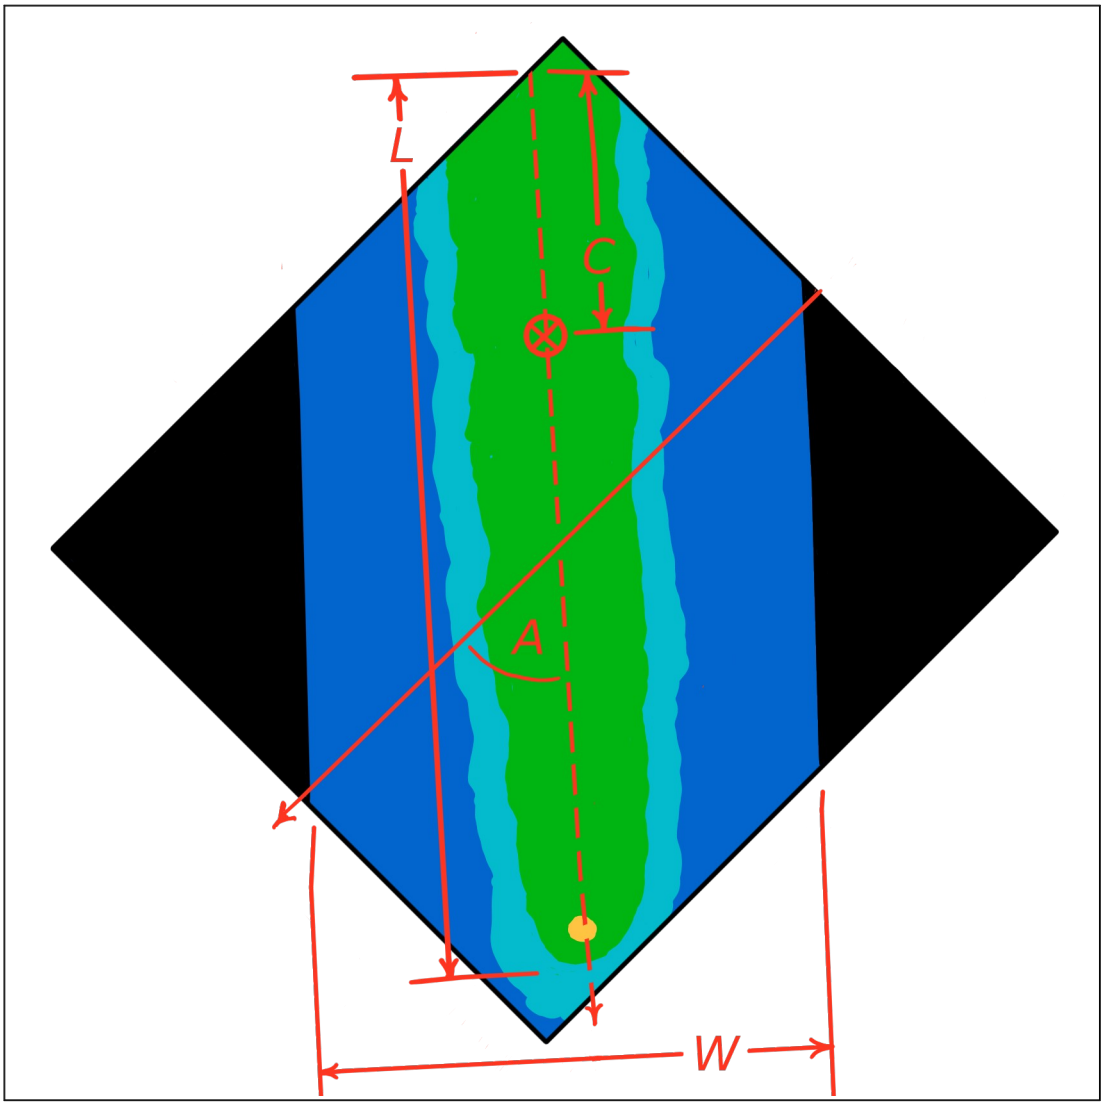

Figure 7: Helski Polwysep Configuration

7.A - Zoning

In this way, five zones are established, described as follows:

7.A.1 - Sea

The dark blue area.

7.A.2 - Reef

The light area.

7.A.3 - Spit

The green area.

7.A.4 - Lookout

The tan area.

7.A.5 - Forbidden

The black area. Dimension “W” shall constitute 50% of the un-rotated edge length, and in that state, cause this zone to also consume 50% of the map’s area.

7.B - Origin of Player Lands

The *Origin of Player Lands* shall be located on the Spit (§7.A.3), centered at indicated circled (x).

7.C - Randomizations

7.C.1 - Rotation

Angle “A” shall have no fewer than sixteen points within a full 360 deg rotation.

7.C.2 - Peninsular Length

Dimension “L” shall have no fewer than 5 points.

7.C.3 - Center of Players

Dimension “C” shall have no fewer than 3 points.

8 - Elevation

8.A - Sea

The Sea shall be Elevation 0.

8.B - Reef

The Reef shall be Elevation 0.

8.C - Spit

The Spit shall be Elevation 0, with sparse mounds up to Elevation 1.

8.D - Lookout

The Lookout shall be Elevation 2.

8.E - Forbidden

The Elevation of this zone is immaterial.

9 - Terrain

9.A - Sea

The Sea shall consist of seasonal water per GSRM-PL-1, with the following exception: rather than Spring ice forming a continuous, protruding land-bridge to the peninsula, it shall instead create large loosely inter-connected sheets that supply a valid path for units to travel from the Forbidden Zone to the Reef, and vice-versa.

9.B - Reef

The Reef shall consist of mangrove shallows terrain.

9.C - Spit

The Spit shall consist of sandy/dirty/sea-grassy open land terrain, with reed forests of variable density.

9.D - Lookout

The Lookout shall consist of sandy/rocky terrain.

9.E - Forbidden

The Forbidden shall consist of DLC_BLACK and be inaccessible to all player-controlled units.

10 - Objects

10.A - Starting Units

Each player shall start the game controlling objects defined by Table 10.A:

Object	Per Applicable Specification	Distance from *Origin of Player Lands* [tiles]	Quantity
Town Center	~	0	1
Herdable	GSRM-PL-1	2 to 3	4
Villager	~	6	3
Harmful Scout	GSRM-PL-1	4 to 9	1

Table 10.A: Starting Player-Controlled Objects

10.B - Resources

10.B.1 - Beached Whales

At least two Beached Whales per GSRM-PL-1 shall appear on Helski Polwysep.

10.C - Great Leaders

Helski Polwysep shall establish a random chance to implement the following heroes in the non-interactive style of GSRM-PL-1, at the Lookout described in §7.A.4. Probability breakdown as follows:

- A 50% chance of 12th century Polish hero “Boleslaw III Wrymouth” [BtW]
- A 50% chance of 15th century Polish heroes “Jagiellon” [CfJ] and “Zygmunt I Stary” [ZfS].

10.D - Signal Fire

The Lookout shall posses a single gaia unconvertible house, and other appropriate eye candy associated with signaling bonfires, including gaia unconvertible attendants, bonfires, lumber piles, etc.

Revision History:

Revision	Description	Change Document	Date (YYYY-MM-DD)
X1	Advanced release for community review/feedback.	N/A	2026-09-20
X2	Updated zone image & randomizations. Added variable density reed forests (simple for long/short peninsula varieties), and beached whale requirement.	N/A	2026-10-22
