1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
GSRM-PL-1	General Requirements, Polish Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

This section is intentionally left blank.

3 - Background

This Age of Empires II random map exhibits Mazury, an expansive, flat, and open region in Northeast Poland, with extensive amorphous lakes. This location was selected due to unique geography (“Land of Lakes”), and its historical nexus between Poland, Lithuania, and the Teutonic Order.

4 - Overview

This component specification defines requirements of a City of Lakes style map, for use in a Polish Map Collection.

5 - General Requirements

The requirements of GSRM-PL-1 apply unless superseded by this specification.

6 - Rule Changes

This section is intentionally left blank.

7 - Land Configuration

Mazury shall be arranged per Figure 7 below:

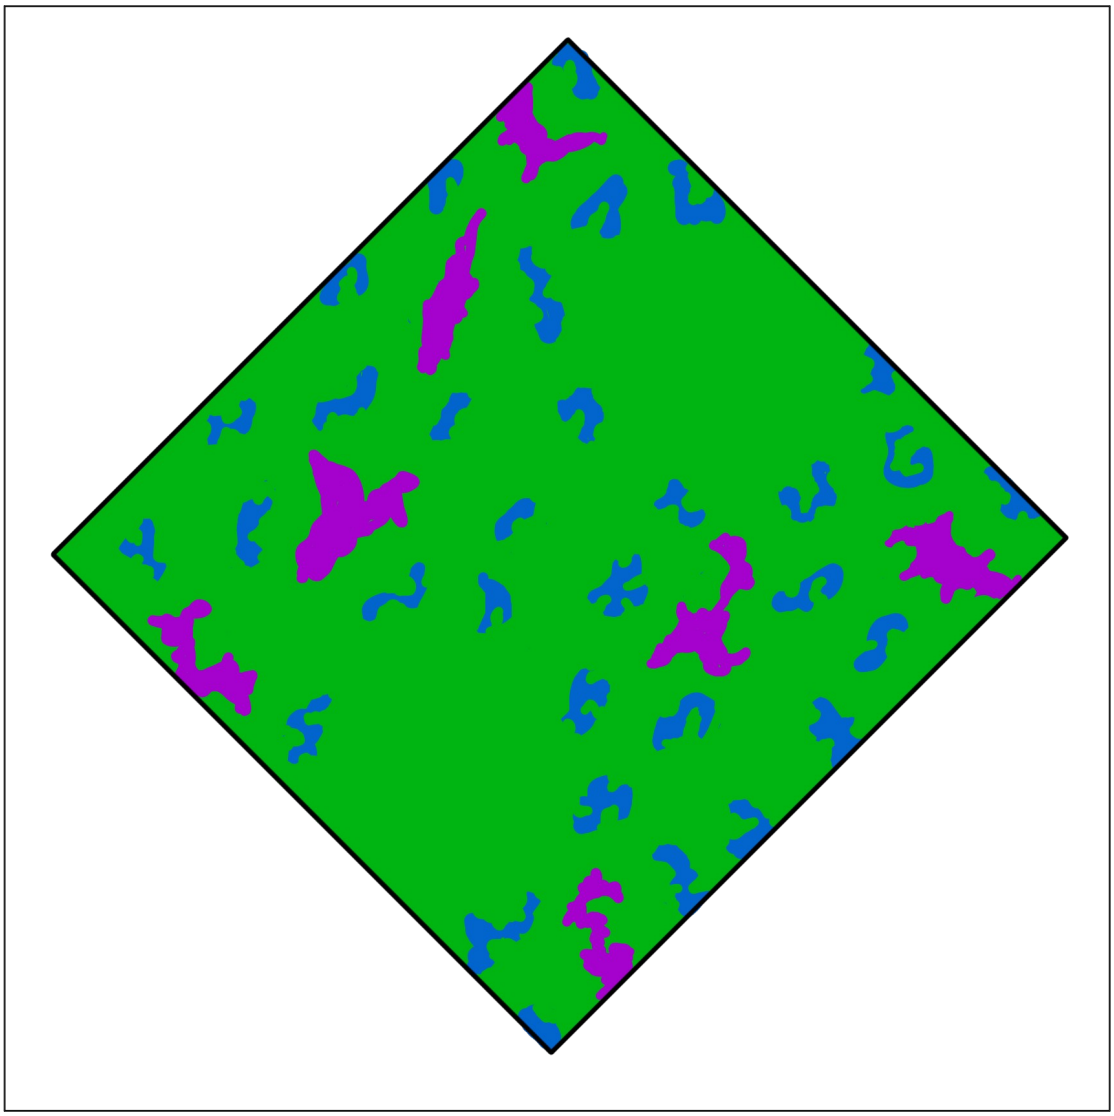

Figure 7: Mazury Configuration

7.A - Zoning

In this way, three zones are established, described as follows:

7.A.1 - Plains

The green area.

7.A.2 - Major Lakes

The magenta area, with irregular patches spaced between 20 and 28 tiles apart from other patches of the same zone.

7.A.3 - Minor Lakes

The blue area, with irregular patches spaced between 10 and 14 tiles apart from patches of all zones.

7.B - Origin of Player Lands

The *Origin of Player Lands* shall be located on the Plains (§7.A.1). As illustrated by Figure 7, the remaining zones shall avoid the *Origin of Player Lands* by at least 24 tiles.

7.C - Randomizations

This section is intentionally left blank.

8 - Elevation

8.A - Plains

The Plains shall be Elevation 1. with scattered hills up to Elevation 2.

8.B - Major Lakes

The Major Lakes shall be Elevation 0.

8.C - Minor Lakes

The Minor Lakes shall be Elevation 0.

9 - Terrain

9.A - Plains

The Plains shall consist of open land terrain with scattered forests.

9.B - Major Lakes

The Major Lakes shall consist of seasonal water per GSRM-PL-1, changes less pronounced than in §9.C

9.C - Minor Lakes

The Minor Lakes shall consist of seasonal water per GSRM-PL-1.

10 - Objects

10.A - Starting Units

Each player shall start the game controlling objects defined by Table 10.A:

Object	Per Applicable Specification	Distance from *Origin of Player Lands* [tiles]	Quantity
Town Center	~	0	1
Herdable	GSRM-PL-1	2 to 3	4
Villager	~	6	3
Harmful Scout	GSRM-PL-1	4 to 9	1

Table 10.A: Starting Player-Controlled Objects

10.B - Resources

10.B.1 - Fish

10.B.1.a - Major Lakes

A random integer shall be generated between and including 2 to 5. Each Major Lakes shall possess exactly that number of unmodified shore fish, and no other types, with approximately uniform distribution.

10.B.1.b - Minor Lakes

A new random integer shall be generated between and including 1 to 4. Each Minor Lakes shall possess exactly that number of unmodified shore fish, and no other types, with approximately uniform distribution.

10.C - Great Leaders

Mazury shall implement Lithuanian hero “Algirdas” [AoL] and a small raiding party entourage (~10 other cavalry) in the non-interactive style of GSRM-PL-1, avoiding the *Origin of Player Lands* by no less than 45 tiles.

10.D - Vampire Pyramid

A single “Nubian Pyramid” (1563) set facet 1 and avoiding the *Origin of Player Lands* by no less than 45 tiles, shall be embedded within a patch of forest terrain.
