If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Background

The *Alchemy Alliance (ALAL)* is a free and non-profit organization of random map scripters, tournament hosts, content creators, and skilled players dedicated to the advancement of custom random maps in Age of Empires II: Definitive Edition. As the nucleus of the *Alchemy AOE Community*, the *ALAL* publishes quality standards for custom random maps, and curates the finished products to be featured into thematic competitions where adventuresome players may exhibit creative strategies for maximum entertainment value.

3 - Overview

This handbook describes Alchemy League, a unique Age of Empires II 1v1 competition hosted by the *Alchemy Alliance*. As the most advanced AOE2 tournament in the world, Alchemy League boasts “big data” averaging of ranked elo calculation, a trade-secret single division stack matchmaker, and prizes awarded to players who most over-perform predictions. For maximum variety and entertainment, Alchemy League is played on Custom Maps with Standard Victory conditions.

4 - League Format

4.A - Team Size

The event described by this handbook is 1v1.

4.B - Structure

Single division Round Robin per [MTHD-007](#) consisting of 3 Sprints with 2, 4, and 4 Rounds, respectively.

4.C - Games per Round

Matched participants shall complete 2 or 3 games per round satisfying the conditions of this handbook. Players may decide at any point during their set how many games to play, but once a game has begun, it cannot be aborted to prevent a loss. All games played in this format shall inform results and payout calculation.

5 - Prize Money

5.A - Sprint Winners

The number of winners for each Sprint shall be either:

- Twice the number of Rounds described in §4.B, OR
- Top 5% of all players in the first sprint, then top 10% of all players in remaining sprints.

Whichever is greater.

5.A.1 - Participation Threshold

Regardless of fault, players shall complete more than 50% of minimum planned games each Sprint to be eligible for prizes.

5.A.2 - Winner Determination

Winning players calculated per MTHD-005.

5.B - Sprint Prizes

5.B.1 - Contestable

The prize pool for each Sprint shall be \$[60, 60, 180] USDC, respectively.

5.B.2 - Distribution

Contestable prizes (§5.B.1) distributed among winning players (§5.A.2) per MTHD-006.

5.B.3 - Currency Conversion

A currency conversion credit shall of \$1.50 USDC shall be added to the amount earned by each player from §5.B.2.

5.C - Payment Details

5.C.1 - Platform

Disbursed via Solana intermediary per MTHD-010.

5.C.2 - Originating Country

United States of America

7 - Matchmaking

Players shall be matched according to the following to the following procedure:

1. Reference internet APIs to garner all alternate or “smurf” accounts corresponding to the same player, derived through IP address, Steam account sharing, and other methods.
2. Reference internet APIs to harvest all relevant match history corresponding to each of the accounts gathered from the previous step.
3. Calculate average ranked elo from 100 most recent games, linearly weighted per MTHD-002.
4. Perform a tolerance sweep on win rate and elo fluctuation over history to estimate sensitivity of ranked skill level, with 100% confidence interval.
5. Take average as the $\frac{3}{4}$ point going from minimum to maximum within that confidence window.
6. For returning players -- adjust $\frac{3}{4}$ point to account for previous performance per MTHD-009.
7. List players in order of skill and match per §4.B.
8. For each matched set of players, 100 shall be added to the lower of two elos and then MTHD-003 applied to determine corrective handicap.

8 - Custom Map Information

8.A - Qualities

Community-created random maps, sourced per open-contest described in PSRM-001.

8.B - Featured Map

For each non-wild round, the host shall –prior to the start of the tournament– declare a map from the pool to be “Map of the Round” (see §8.D.1). Unless there are more rounds than available maps, a map cannot be “Map of the Round” twice in the same season.

8.C - How to Get

To protect creator intellectual property rights, the Alchemy AOE Community does not upload competition resources to the in-game mod center. Participants shall download the latest Alchemy League map scripts and place them in a folder suitable for integration into the game.

Recommended approach (~30 seconds): download and run the following open-source batch script: [Download .bat file here](#). This executable was written by the community to automatically download and move the latest version of each map in the pack from the online repository to the correct location. It is used by most players.

Direct control (~2 minutes): download the “Map_Archive” zip file from the Alchemy AOE Season web-page and unzip to the appropriate game folder. Note that the direct download is required for non-Windows users.

The Alchemy AOE Community server is webhook-configured to notify players of any changes to the random map Github repository –the source of the custom map pool. Players are responsible for making sure they are using the latest versions by re-downloading after a map is updated. Tournament staff are eager to assist as needed.

8.D - Selection

8.D.1 - Round Normal

The first map played in a set is the “Map of the Round” per §8.B. Then, players take turns discarding the remaining maps. Additional games are played in reverse order of the discard. In this way, the “Map of the Round” is assured, and no map is repeated within the same set.

8.D.2 - Round Wild

Lower seed selects a home map to play first. Additional maps are selected by whoever lost the previous game, regardless of seed or overall performance.

9 - General Settings

9.A - Civilization Selection

9.A.1 - Restrictions

All Civilizations offered by the official developers prior to April 2026 are approved for interaction with this season of Alchemy League.

9.A.2 - Draft

The following procedure applies:

1. Sixteen Randomly Applied Global Bans (administrator)
2. Eight Total Global Bans (players take turns, until each has four)
3. Eight Total Exclusive Picks (players take turns, until each has four)
4. Two Hidden Snipes (Each player snipes in parallel)
5. Four Total Exclusive Picks (players take turns, until each has two)

9.B - Tournament Server

9.C - Tournament Host

Direct all questions to TechChariot.

9.D - General Rules

Per STND-005.

9.E - Discipline

Administrative penalties assigned per MTHD-004. Maximum possible penalties per Sprint equal to 2 times the number of contained Rounds (see §4.B).

9.F - Eligibility

9.F.1 - First Sprint

Participants shall have 100 1v1 ranked games minimum and win rate between 15% and 85% totaled across all accounts.

9.F.2 - Other Sprints

Participants shall complete all previous Sprints without accumulation of excessive administrative penalties.
