1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-AK-3</u>	General Requirements, Alaska Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of town center.

3 - Overview

This component specification defines requirements for an island map representing Kodiak Island in an Alaska map pack.

4 - General Characteristics

The requirements of GSRM-AK-3 apply unless superseded by this specification.

5 - Rule Changes

This section is intentionally left blank.

6 - Land Configuration

Kodiak Island shall be arranged per Figure 6 below, Noting that dark blue represents liquid water/ocean, while green represents land terrain:

Figure 6: Kodiak Configuration

6.A - Zoning (Definitions)

Kodiak shall consist of one island that encompasses most of the map, surrounded by water and small islands in the corners, with the following zone breakdown:

6.A.1 - Ocean

Large blue area surrounding the central island.

6.A.2 - Mountains

Green area bounded by purple lines and the Ocean.

6.A.3 - Player Lands

Any area that is not Ocean or Mountains.

6.B - Randomizations

This section is intentionally left blank.

7 - Elevation

7.A - Ocean

The Ocean shall be elevation 0.

7.B - Mountains

Rugged elevation shall slope up from the valleys and the highest terrain shall reach a minimum elevation of 7.

7.C - Player Lands

Player Lands shall have minimum elevation of 1 with occasional excursions while transitioning into Mountains.

8 - Terrain

8.A - Ocean

The Ocean shall be an appropriate type of navigable, un-walkable water. Ice is forbidden in this zone, even for a winter seasonal variation of the map.

8.B - Mountains

The summits of the Mountains shall be snow, except on the warmest version of the map. Below the summits may be any appropriate combination of snow, temperate grass, gravel, tundra-like terrain, or dirt. On the warmest version of the map, the summit shall not be temperate grass, but any other choices are acceptable.

8.C - Player Lands

Player Lands shall select terrains and a layering/patterning method to resemble tundra, gravel, or temperate grass in any combination.

Forest patches of lower density than the Mountains shall be distributed fairly across the island sides without regard to elevation.

8.D - Path

A path of unbuildable terrain shall connect each *Origin of Player Lands*.

Ships shall be unable to navigate any portion of Mountains or Player Lands, including coastline/land-beach terrain of incidental elevation.

9 - Objects

Most objects are at the discretion of the map creator, balancing thematic interests against strategic variety. The explicit requirements for this map are few but listed below.

9.A - Starting Units

Each player shall start the game controlling objects defined by Table 9.A:

Object	Per Applicable Specification	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Town Center	~	0	1
Sheep	~	6	2
Villager	~	3 to 6	3
Harmless Exploration Unit	<u>GSRM-AK-3</u>	7	1

Table 9.A: Starting Player-Controlled Objects

9.B - Neutral Units and Resources

Berries and large amounts of huntable animals shall be placed all over the map. Fish shall be plentiful. Boars are forbidden.

Revision History:

<u>Revision</u>	Description	Change Document	Date (YYYY-MM-DD)
X1	Advanced release for community review/feedback.	N/A	2024-07-16
OI	----- Original Issue -----	N/A	2024-07-21
R1	Corrected land configuration error in original (reference to glacier) and added small islands in map corners. Removed reference to lakes in water/terrain section. Revised forest arrangement to reflect tree distribution. Updated starting units (Table 9.A). Added minimap screenshot.	N/A	2024-09-13
R2	Conversion to new specification format, minor simplifications/clarifications. Added §8.D.	N/A	2025-08-06
