1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-FIW-1</u>	General Requirements, FIW Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of starting units.

3 - Background

This Age of Empires II random map recreates the Susquehanna river, as it may have appeared during the the French and Indian War. While not the site of a major battle, a twice-displaced Lenape tribe – emboldened by a recent British defeat and promises from French agents – perpetrated a massacre against Swiss and German settlers in Central Pennsylvania at Penn’s Creek, a tributary of the Susquehanna.

The name “Susquehanna” is derived from the Lenape language meaning “muddy river”, referring to the unique hydrology of a river older than the dinosaurs, knee depth, and wider than 1,000 men laid end to end where it empties into the Chesapeake Bay.

4 - Overview

This component specification defines requirements for an inverse Nomad style map, inspired by the swirling Susquehanna river.

5 - General Requirements

The requirements of GSRM-FIW-1 apply unless superseded by this specification.

6 - Rule Changes

This section is intentionally left blank.

7 - Land Configuration

Susquehanna shall be arranged per Figure 7 below:

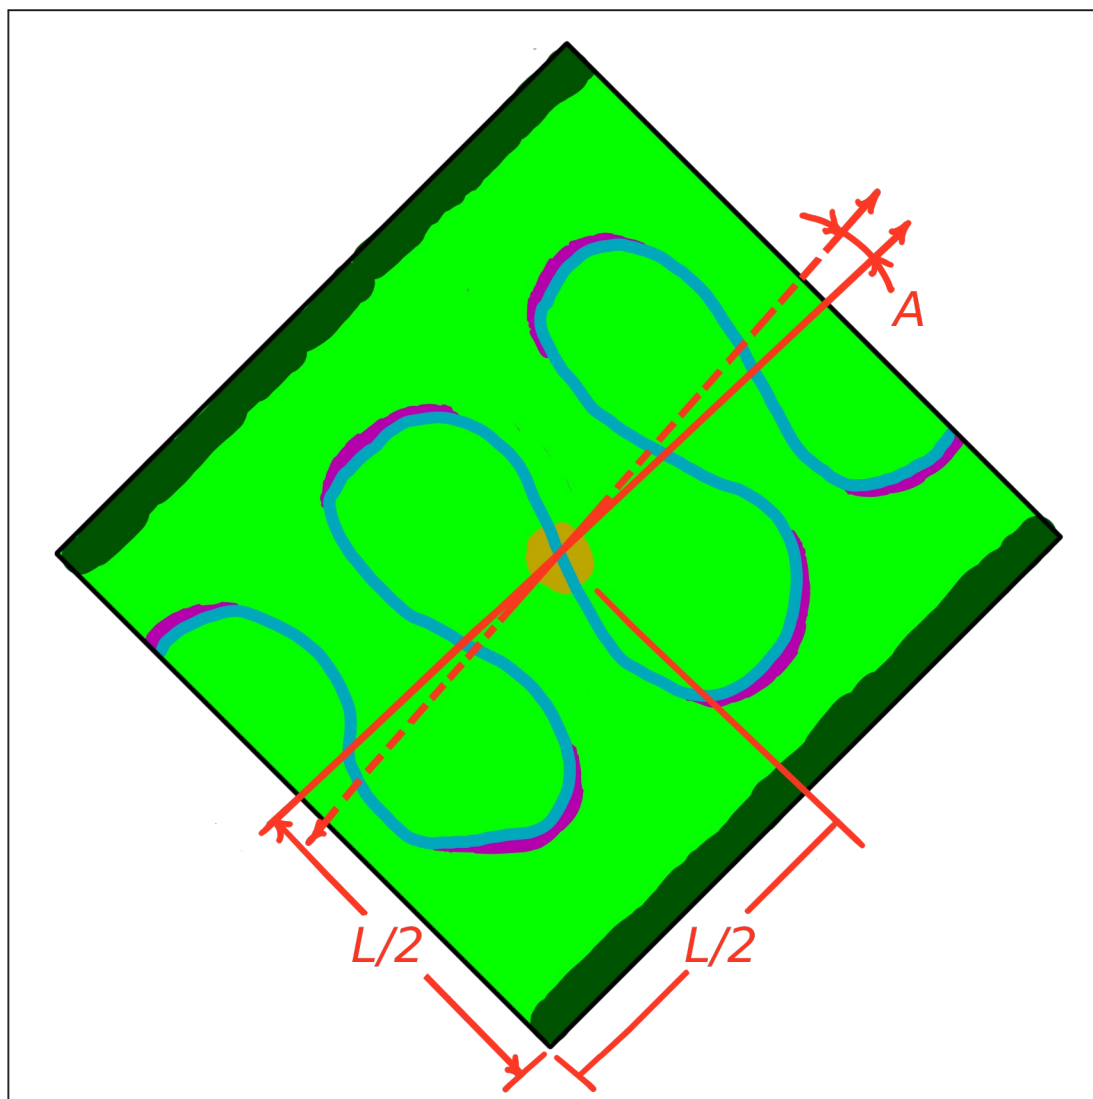

Figure 7: Susquehanna Configuration

7.A - Zoning

In this way, five zones are established, described as follows:

7.A.1 - Creek

The blue area.

7.A.2 - Swamp

The purple area.

7.A.3 - Hamlet

The tan area.

7.A.4 - Outland

The dark green area.

7.A.5 - Inland

The light green area.

7.B - Origin of Player Lands

This section is intentionally left blank.

7.C - Randomizations

7.C.1 - Rotation

Angle “A” shall have no fewer than eight points between and including 0 to 180 degrees.

8 - Elevation

8.A - Creek

The Creek shall be Elevation 0.

8.B - Swamp

The Swamp shall be Elevation 0.

8.C - Hamlet

The Hamlet shall be Elevation 1.

8.D - Outland

The Outland shall be Elevation 2, with scattered hills.

8.E - Inland

The Inland shall be Elevation 1, with scattered hills.

9 - Terrain

10 - Creek

The Creek shall consist of seasonal water and shallows per GSRM-FIW-1.

10.A - Swamp

The Swamp shall consist of non-navigable beach, masked to give the appearance of a swampy, sediment-filled river bend.

10.B - Hamlet

The Hamlet shall consist of open land terrain, with emphasis on trampled surfaces, and occasional forest patches.

10.C - Outland

The Outland shall consist of forest, with occasional pockets of open land on larger map sizes.

10.D - Inland

The Inland shall consist of open land terrain with scattered forests.

11 - Objects

11.A - Starting Units

Each player shall start the game controlling objects defined by Table 11.A:

Object	Per Applicable Specification	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Ox Wagon	<u>GSRM-FIW-1</u>	N/A	1
Herdable	<u>GSRM-FIW-1</u>	N/A	3
Harmless Scout	<u>GSRM-FIW-1</u>	N/A	1

Table 11.A: Starting Player-Controlled Objects

Ox Wagons shall be placed within the Hamlet described in §7.A.3, and Harmless Scouts elsewhere, surrounded by player-controlled herdables within 2 tiles.

11.B - Resources

11.B.1 - Gold

All gold on the map shall be contained in the Swamp described in §7.A.2.

11.B.2 - Stone

All stone on the map shall be border the Outland described in §7.A.4.

11.C - Indian Village

The Hamlet described in §7.A.3 shall contain an Indian Village per GSRM-FIW-1 with two trading huts, one on each side of the Creek.
