1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-FIW-1</u>	General Requirements, FIW Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of town center.

3 - Background

This Age of Empires II random map approximates Fort Ticonderoga in 1758 at the height of the French and Indian War. The decisive “Battle of Carillon” was fought on the slopes above the fort’s ramparts, during which 4,000 French and Indian defenders repulsed an incompetent attack from a British Army, at least 3 times their number. As a result, the British did not capture the fort until a second expedition, one year later.

The name “Ticonderoga” is derived from the Mohawk word for “junction of two waters”, referring to its strategic location at the portage between Lake George and Lake Champlain.

4 - Overview

This component specification defines requirements for a “Coastal Forest” style map inspired by Fort Ticonderoga.

5 - General Requirements

The requirements of GSRM-FIW-1 apply unless superseded by this specification.

6 - Rule Changes

This section is intentionally left blank.

7 - Land Configuration

Ticonderoga shall be arranged per Figure 7 below:

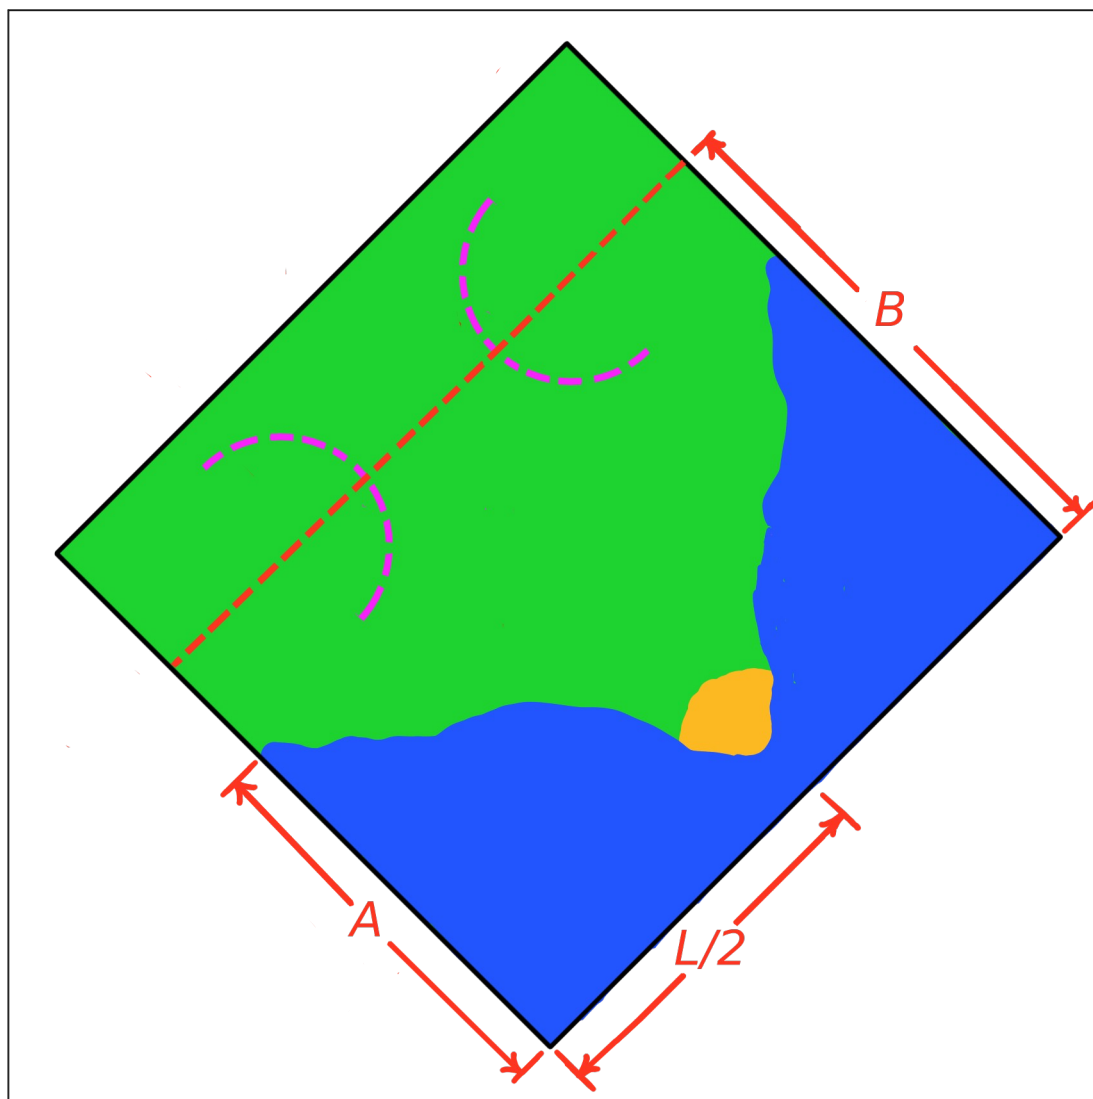

Figure 7: Ticonderoga Configuration

7.A - Zoning

In this way, five zones are established, described as follows:

7.A.1 - Lake

The blue area.

7.A.2 - Overlook

The tan area.

7.A.3 - Hill

The green area.

7.B - Origin of Player Lands

The *Origin of Player* Lands shall be team-wise divided across purple dashed arcs, with focal point along the red dashed line.

7.C - Randomizations

Ticonderoga shall randomize “A”; imparting maximum variety to the map.

8 - Elevation

8.A - Lake

The Lake shall be Elevation 0.

8.B - Overlook

The Overlook shall be Elevation 3.

8.C - Hill

The Hill shall be Elevation 3, gradually ascending to a maximum elevation between 7 or 8. The summit shall be located approximately distance “B” from the bottom (entirely blue) edge of the map.

9 - Terrain

9.A - Lake

The Lake shall consist of seasonal water per GSRM-FIW-1.

9.B - Overlook

The Overlook shall consist of open land terrain, with emphasis on constructed or trampled surfaces.

9.C - Hill

The Hill shall consist of open land terrain, with scattered forests.

10 - Objects

10.A - Starting Units

Each player shall start the game controlling objects defined by Table 10.A:

Object	Per Applicable Specification	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Town Center	~	0	1
Herdable	<u>GSRM-FIW-1</u>	2 to 3	4
Villager	~	6	3
Iroquois Scout	<u>GSRM-FIW-1</u>	7 to 8	1

Table 10.A: Starting Player-Controlled Objects

10.B - Resources

10.B.1 - Relics

If seasonal variation of the map would supply walkable ice terrain, then all relics shall be placed thereupon. Otherwise, relics shall be scattered across the “Hill”.

10.C - Fort

An unclosable stone-walled fortification per GSRM-FIW-1 shall be placed on the Overlook described in §7.A.2, surrounded by bonus gold.
