If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Map Supplier* – A person who forms plans and leads the development, troubleshooting, and design changes of a random map script, in order for it to comply with all applicable requirements. The Supplier is the owner and point of contact for a map, but need not be the sole originator of all containing script or script-compiling materials. In the event of collaboration, it is presumed that the Supplier properly credited all co-creators and achieved consensus to apply the team’s work in support of this Alchemy AOE Competition.
- *Map Organizer* – A person who arranges the development of an entire map pack to be used in a competition. The Map Organizer consults as needed with the Competition host to disposition any maps that do not conform to established requirements and determines, in his/her discretion – with input from subject-matter experts – the state of readiness for any map listed herein.
- *CSRM* – (C)omponent (S)pecification for (R)andom (M)ap: A technical document defining the needs for each map sourced specifically for the competition. Supersedes any general specifications, in the case of conflicting requirements.
- *GSRM* – (G)eneral (S)pecification for (R)andom (M)ap: A technical document defining the common needs of most or all random maps used in competitions, mitigating repetitive text across component specifications that would otherwise share common features. In the case of a conflict, specific requirements take priority over general.
- *PSRM* – (P)rocurement (S)pecification for (R)andom (M)ap: A technical document defining the procurement process for a group of maps to be used in a competition, including a list of maps, creators, contest descriptions, compensation, etc.

3 - Background

A New York State Map pack was conceived in June of 2025 to include locations across the Empire State. In honor of America’s 250th birthday (1776 – 2026), this map pack was expanded to include an event of great significance in American history – the French and Indian War, without being too “on the nose” in featuring the Revolutionary War.

4 - Overview

This document provides definition for a French and Indian War themed map pack intended for use in an Alchemy League Competition.

5 - Procurement

Where applicable, maps shall be sourced according to the procedure defined by STND-001.

Creators should not construe the appearance of an assigned map in the above list as a guarantee of featuring. As community representative, the Map Organizer (§6) determines in his or her discretion the state of readiness for each creation according to the community process of §5. Ready maps included in the parent tournament.
