1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-AK-3</u>	General Requirements, Alaska Maps

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of town center.

3 - Overview

This component specification defines requirements for a mountain range-style map inspired by the White Pass and Chilkoot Pass between Skagway, Alaska and Bennett Lake, British Columbia.

4 - General Characteristics

The requirements of GSRM-AK-3 apply unless superseded by this specification.

5 - Rule Changes

This section is intentionally left blank.

6 - Land Configuration

White Pass shall be arranged per Figure 6 below:

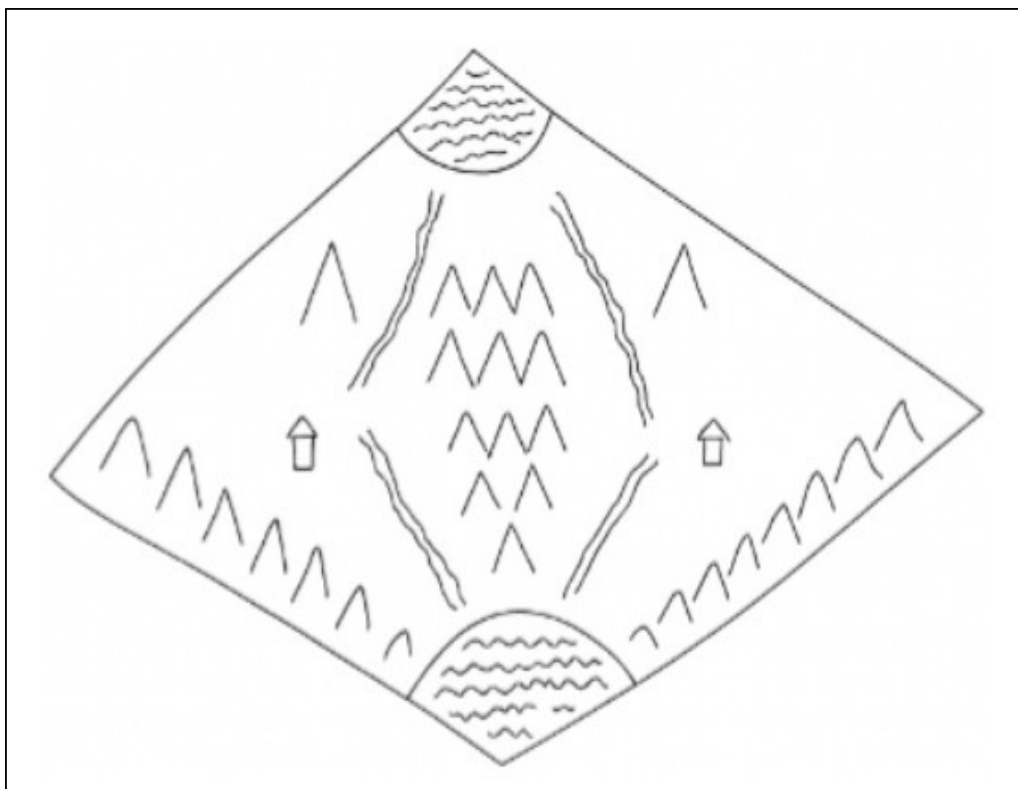

Figure 6: White Pass Configuration

This includes a channel at sea level in one corner of the map and an alpine lake in the opposite corner. Terrain between these two bodies of water is relatively steep and mountainous. Two passes through the mountains connect the channel and alpine lakes, littered with dead horse objects. The *Origin of Player Lands* shall be located between the channel and the alpine lake on or near the pass, but each player shall start on separate passes.

6.A - Zoning (Definitions)

One zone has been established, described as follows:

6.A.1 - Lake Bennett

This section has intentionally been left blank.

6.B - Randomizations

This section has intentionally been left blank.

7 - Elevation

7.A - Lake Bennett

This section has been intentionally left blank.

8 - Terrain

8.A - Lake Bennett

This section has been intentionally left blank.

9 - Objects

Most objects are at the discretion of the map creator, balancing thematic interests against strategic variety. The explicit requirements for this map are few but listed below.

9.A - Starting Units

Each player shall start the game controlling objects defined by Table 9.A:

Object	Per Applicable Specification	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Town Center	~	0	1
Sheep	~	2 to 3	4
Villager	~	6	3
Harmful Exploration Unit	<u>GSRM-AK-3</u>	6 to 8	1

Table 9.A: Starting Player-Controlled Objects

9.B - Resources

This section has been intentionally left blank.
