<u>CSRM-PL-09</u>	Biebrza

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Map Supplier* – A person who forms plans and leads the development, troubleshooting, and design changes of a random map script, in order for it to comply with all applicable requirements. The Supplier is the owner and point of contact for a map, but need not be the sole originator of all containing script or script-compiling materials. In the event of collaboration, it is presumed that the Supplier properly credited all co-creators and achieved consensus to apply the team's work in support of this Alchemy AOE Competition.
- *Map Organizer* – A person who arranges the development of an entire map pack to be used in a competition. The Map Organizer consults as needed with the Competition host to disposition any maps that do not conform to established requirements and determines, in his/her discretion – with input from subject-matter experts – the state of readiness for any map listed herein.
- *CSRM* – (C)omponent (S)pecification for (R)andom (M)ap: A technical document defining the needs for each map sourced specifically for the competition. Supersedes any general specifications, in the case of conflicting requirements.
- *GSRM* – (G)eneral (S)pecification for (R)andom (M)ap: A technical document defining the common needs of most or all random maps used in competitions, mitigating repetitive text across component specifications that would otherwise share common features. In the case of a conflict, specific requirements take priority over general.
- *PSRM* – (P)rocurement (S)pecification for (R)andom (M)ap: A technical document defining the procurement process for a group of maps to be used in a competition, including a list of maps, creators, contest descriptions, compensation, etc.

3 - Background

This section is intentionally left blank.

4 - Overview

This document provides definition for a Polish themed map pack intended for use in an Alchemy League Competition.

5 - Procurement

Where applicable, maps shall be sourced according to the procedure defined by STND-001.

Table 7: Polish Maps

Creators should not construe assignment of a map from the above list as a guarantee of featuring. As community representative, the Map Organizer (§6) determines in his or her discretion the state of readiness for each creation according to the community process of §5. Ready maps included in the parent tournament.
