1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>STND-001</u>	Procurement Process, AOE2 Maps
<u>CSRM-RAND-01</u>	Hyperrandom
<u>CSRM-RAND-02</u>	PocketRandom
<u>CSRM-RAND-03</u>	BiomeBlitz

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Map Supplier* – A person who forms plans and leads the development, troubleshooting, and design changes of a random map script, in order for it to comply with all applicable requirements. The Supplier is the owner and point of contact for a map, but need not be the sole originator of all containing script or script-compiling materials. In the event of collaboration, it is presumed that the Supplier properly credited all co-creators and achieved consensus to apply the team's work in support of this Alchemy AOE Competition.
- *Map Organizer* – A person who arranges the development of an entire map pack to be used in a competition. The Map Organizer consults as needed with the Competition host to disposition any maps that do not conform to established requirements and determines, in his/her discretion – with input from subject-matter experts – the state of readiness for any map listed herein.
- *CSRM* – (C)omponent (S)pecification for (R)andom (M)ap: A technical document defining the needs for each map sourced specifically for the competition. Supersedes any general specifications, in the case of conflicting requirements.
- *GSRM* – (G)eneral (S)pecification for (R)andom (M)ap: A technical document defining the common needs of most or all random maps used in competitions, mitigating repetitive text across component specifications that would otherwise share common features. In the case of a conflict, specific requirements take priority over general.
- *PSRM* – (P)rocurement (S)pecification for (R)andom (M)ap: A technical document defining the procurement process for a group of maps to be used in a competition, including a list of maps, creators, contest descriptions, compensation, etc.

3 - Background

A Super Random Map Pack was conceived in Fall of 2025 to include highly random custom maps made by Alchemy Community members. Such maps would be relatively easy to plan but provide a large amount of variety, allowing easy substitution of another project when needed.

4 - Overview

This document provides definition for a Super Random Map Pack intended for use in an Alchemy League Competition.

5 - Procurement

Where applicable, maps shall be sourced according to the procedure defined by STND-001.

6 - Map Organizer

Direct all questions to TechChariot on discord.

7 - Map Listing

Table 7 below summarizes the maps intended for this season of Alchemy League:

CSRM Designation	Map Number	Nomenclature	Map Supplier
<u>CSRM-RAND-01</u>	RAND-01	Hyperrandom	<u>Zetnus</u>
<u>CSRM-RAND-02</u>	RAND-02	PocketRandom	<u>TechChariot</u>
<u>CSRM-RAND-03</u>	RAND-03	BiomeBlitz	TBD
