1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-ESR-1</u>	General Requirements, ES Remastery

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of town center.

3 - Overview

This component specification defines requirements for a remastered Moats to be used in a Remastered Ensemble Studios Map Pack.

4 - General Characteristics

The requirements of GSRM-ESR-1 apply unless superseded by this specification.

5 - Rule Changes

This section is intentionally left blank.

6 - Land Configuration

Moats shall be arranged per Figure 6 below:

Figure 6: Moats Configuration

In this way, three zones are established, described as follows:

6.A - Moats

Any vibrantly colored square that (going clockwise from noon) is: red, blue, orange, green, purple, yellow, gray, or cyan. Moats to be 3 tiles thick.

6.B - Castle

Any area contained within the Moats, centered at the *Origin of Player Lands*.

6.C - Countryside

Any area not belonging to the other aforementioned zones.

7 - Elevation

7.A - Moats

The Moats shall be at elevation 0.

7.B - Castle

The Castle shall be at elevation 1.

7.C - Countryside

The Countryside shall be at elevation 1, with scattered elevation patches allowing for the construction of additional town centers.

8 - Terrain

8.A - Moats

The Moats shall consist of beachless water (15), with optional mud or gravel boundary and appropriate terrain masking.

8.B - Castle

The Castle shall consist of layered road/dirt/gravel terrain, with four scant forest patches avoiding the *Origin of Player Lands* by at least ten tiles.

8.C - Countryside

The Countryside shall consist of any ground/land terrain not found in the Castle, with scattered forest patches.

9 - Objects

Most objects are at the discretion of the map creator, balancing thematic interests against strategic variety. The explicit requirements for this map are few but listed below.

9.A - Starting Units

Each player shall start the game controlling objects defined by Table 9.A:

Object	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Town Center	0	1
Sheep	2 to 3	4
Villager	6	3
Scout	6	1

Table 9.A: Starting Player-Controlled Objects

9.B - Moats

9.B.1 - Bridges

Moats shall assure land units in the Countryside access to the Castle, and vice-versa using bridge objects in at least two but no more than 4 places for each player.

9.B.2 - Crocodiles

Moats shall contain crocodiles, on the bank furthest from the *Origin of Player Lands*. Crocodiles shall avoid bridges such that they do not pursue units exiting or entering the Castle at any difficulty level.

9.B.3 - Resources

Deep fish and Oysters are forbidden. Shore fish and reeds shall be inaccessible from the bank closest to the *Origin of Player Lands*.

9.C - Castle

In addition to the starting units defined in §9.A, the Castle shall contain player-assigned objects as appropriate for a medieval fortification, consisting of no less than:

- One player-controlled gate for each bridge mentioned in §9.B.1.
- Complete square of stone walls (player controlled or gaia-unconvertible), adjacent to the bank closest to the *Origin of Player Lands*, and flush with gates.

Figure 9.C provides an example for how the Castle **could** look:
