1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-ESR-1</u>	General Requirements, ES Remastery

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of town center.

3 - Overview

This component specification defines requirements for a remastered Seasons to be used in a Remastered Ensemble Studios Map Pack.

4 - General Characteristics

The requirements of GSRM-ESR-1 apply unless superseded by this specification.

5 - Rule Changes

This section is intentionally left blank.

6 - Land Configuration

Seasons shall be arranged per Figure 6 below:

Figure 6: Seasons Configuration for 8 Teams (Left) and 2 Teams (Right)

In this way, two zones are established, described as follows:

6.A - Channels

Azure stripes, with tan bordering. Channels shall not exceed 15 tiles in width.

6.B - Player-Lands

Any area not part of the Channels.

7 - Elevation

7.A - Channels

The Channels shall be elevation 0.

7.B - Player-Lands

The Player Lands shall be elevation 1, with scattered hills.

8 - Terrain

8.A - Channels

Channel terrain shall depend on seasonal variation, influencing game-play. Table 8.A below summarizes the possible combinations:

Season	Cyan Area	Tan Area	Bridges?	Implication for Play
Hard Winter	Solid Ice	Icy Beach	None	Undockable, land units cross freely, no buildings.
Light Winter	Cold Water	Icy Beach	Solid Ice	Dockable, crossings for land units that also block ships.
Spring	Water	Warm Beach	Navigable Ice	Dockable, crossings for land units do not block ships.
Summer	Shallows	Warm Beach	None	Dockable, land units and ships may cross freely anywhere.
Autumn	Water	Warm Beach	None	Dockable, ships may sail freely but land units cannot cross.

Table 8.A: Terrain Dependence in Channels Depending on Season

The Seasons listed in Table 8.A shall have approximately equal probability of occurring.

8.B - Player Lands

Player Lands shall exhibit a boreal or temperate biome in any combination or variety, with terrains selected to support the map's choice of season from Table 8.A.

9 - Objects

Most objects are at the discretion of the map creator, balancing thematic interests against strategic variety. The explicit requirements for this map are few but listed below.

9.A - Starting Units

Each player shall start the game controlling objects defined by Table 9.A:

Object	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Town Center	0	1
Sheep	2 to 3	4
Villager	6	3
Scout	6	1

Table 9.A: Starting Player-Controlled Objects

9.B - Seasonal Variation

Objects shall support the map's choice of season from Table 8.A, and resources may appear or disappear depending on season.
