1 - Referenced Documents

Table 1 below is a list of all specifications that are components to this one. Each of its entries were designed as an interchangeable part, to be used in context for this specification, or others like it:

Specification Number	Nomenclature
<u>GSRM-ESR-1</u>	General Requirements, ES Remastery

Table 1: Bill of Materials

If any part of any documents listed in Table 1 conflict with this specification, then this specification shall assume priority.

2 - Definitions

The following definitions apply:

- *Origin of Player Lands* – Location of town center.

3 - Overview

This component specification defines requirements for a remastered Team Glaciers to be used in a Remastered Ensemble Studios Map Pack.

4 - General Characteristics

The requirements of GSRM-ESR-1 apply unless superseded by this specification.

5 - Rule Changes

This section is intentionally left blank.

6 - Land Configuration

Team Glaciers shall be arranged per Figure 6 below:

Figure 6: Team Glaciers Configuration

In this way, two zones are established, described as follows:

6.A - Channels

Snaky dark-blue areas.

6.B - Player-Lands

Any area not part of the Channels.

7 - Elevation

7.A - Channels

The Channels shall be at elevation 0.

7.B - Player-Lands

The Player-Lands shall be at elevation 1, except where crossing the Channels, where their elevation shall be 0.

8 - Terrain

8.A - Channels

The Channels shall consist of water terrain.

8.B - Player-Lands

The Player-Lands shall consist of solid ground terrain, blended with trees and ice, as appropriate for seasonal variation. Natural bridging terrain shall connect varying islands without need of transport ships.

9 - Objects

Most objects are at the discretion of the map creator, balancing thematic interests against strategic variety. The explicit requirements for this map are few but listed below.

9.A - Starting Units

Each player shall start the game controlling objects defined by Table 9.A:

Object	Distance from <i>Origin of Player Lands</i> [tiles]	Quantity
Town Center	0	1
Sheep	2 to 3	4
Villager	6	3
Scout	6	1

Table 9.A: Starting Player-Controlled Objects

9.B - No Sea Resources

Due to frigid temperatures of glacial melt-water, fish and oysters are forbidden.
